Auditor's Report

FREMONT, N. H., February, 15, 1915.

This certifies that I have carefully gone over the accounts of the Selectmen, Town and School District Treasurer, Road Agents, Library Trustees and Treasurer of the 150th Anniversary Committee. I find them correctly cast and supported by proper vouchers for the several charges; there remains in the hands of the Town Treasurer \$337.88, with a balance in favor of the town of \$404.70 at the close of the fiscal year.

WILCOMB H. BENFIELD, *Auditor*.

NOTE.—It may not be out of place to state that the Town has cleared itself of a debt of nearly \$3000.00, incurred by the building of two new steel bridges a few years ago. This, accomplished with an appropriation of \$1000.00, speaks for itself as to the Town's management.

Also we would suggest that a vote of thanks, at least, should be extended to the manager of the Spaulding & Frost Co., for electric lights furnished gratis on our streets and in public buildings.

W. H. B.

School Report

TO THE CITIZENS OF FREMONT:

Another school year is past, and it becomes our duty to again report to you the condition of our schools, and note whatever of success or failure may have been made during the year, as well as to render the financial account for your inspection.

We have maintained the five schools as usual, with an equal length of thirty-four weeks, with three weeks extra for the Village Intermediate on account of the teacher, Mrs. Ellis, holding a State certificate, thereby receiving two dollars per week from the State. Also the South School, Mrs. Philbrick, got one week extra for the same reason.

There are in town, according to the enumeration furnished by the truant officer, 177 pupils of school age, and 107 are enrolled on the school register, six of whom live out of town and sixteen are attending High School. The attendance, with few exceptions, has been good, parents generally have co-operated with the teachers, without which no school can be a success.

But there are some to whom we wish to quote from the School Laws of New Hampshire, Chapter 93, Sec. 14: "Every person having the custody and control of a child between the ages of eight and fourteen years, or of a child under the age of sixteen years, unless such child shall have completed the course of study prescribed for the elementary schools, residing in a school district in which a public school is annually taught, shall cause such child to attend the public school all the time such school is in session." The State authorities have notified us that this law *must* be enforced. All should understand, once for all, that the School Board of a town cannot excuse any one from attending school, except in case of sickness.

The District School is really the most important institution

in the community, and the teacher is, or should be, among the most essential personages. To her is committed the care of our children, in the period when they are most easily molded, and when her influence is as potent as are the parents'. The childish mind must be so guided that his after years may be useful. The teachers of the country schools are shaping the destiny of our nation.

While our schools may not have reached that high degree of perfection so much to be desired, yet we believe they compare favorably with their class of schools throughout the State. It should be borne in mind that school work demands continuous yearly growth, a gathering of new ideas and putting them judiciously into practice. The hill of knowledge is long and steep. There is always something more to learn beyond, and we should grasp every opportunity in our youthful days, to gain such knowledge as will enable us to scale the heights as we come to them. Some say it does not pay to put so much money into our schools as we are doing. That much of it is thrown away. That twenty weeks' schooling a year is enough, and all that sort of talk one can hear. To such we would ask, can we afford to do less by the young people, committed to our keeping? And to the croakers, remember the words of the Great Teacher, "Let those that are without fault, etc."

We recommend the following appropriations for the coming year:

Required by law.....	\$900 00
Additional to secure State aid.....	391 00
High School tuition.....	450 00
Books, supplies, flags, repairs, etc.	150 00
Salaries.....	68 00

\$1,959 00

The annual school meeting will be Saturday, March 13, 1915, at 2 P. M., at the Town Hall.
